CONTAMINATION IN RIGHT OF WAY: Yes No**DOCUMENTS NEEDED:**

Closure Letter, and any conditional closure letter issued

Copy of most recent deed, including legal description, for all affected properties

Certified survey map or relevant portion of the recorded plat map (*if referenced in the legal description*) for all affected propertiesCounty Parcel ID number, *if used for county*, for all affected properties

Location Map which outlines all properties within contaminated site boundaries on USGS topographic map or plat map in sufficient detail to permit the parcels to be located easily (8.5x14" if paper copy). If groundwater standards are exceeded, the map must also include the location of all municipal and potable wells within 1200' of the site.

Detailed Site Map(s) for all affected properties, showing buildings, roads, property boundaries, contaminant sources, utility lines, monitoring wells and potable wells. (8.5x14", if paper copy) This map shall also show the location of all contaminated public streets, highway and railroad rights-of-way in relation to the source property and in relation to the boundaries of groundwater contamination exceeding ch. NR 140 ESs and soil contamination exceeding ch. NR 720 generic or site-specific residual contaminant levels:

Tables of Latest Groundwater Analytical Results (no shading or cross-hatching)

Tables of Latest Soil Analytical Results (no shading or cross-hatching)

Isoconcentration map(s), if required for site investigation (SI) (8.5x14" if paper copy). The isoconcentration map should have flow direction and extent of groundwater contamination defined. If not available, include the latest extent of contaminant plume map.

GW: Table of water level elevations, with sampling dates, and free product noted if present

GW: Latest groundwater flow direction/monitoring well location map (should be 2 maps if maximum variation in flow direction is greater than 20 degrees)

SOIL: Latest horizontal extent of contamination exceeding generic or site-specific RCLs, with one contour.

Geologic cross-sections, if required for SI. (8.5x14' if paper copy)

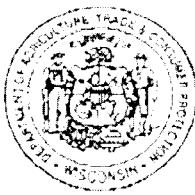

RP certified statement that legal descriptions are complete and accurate

Copies of off-source notification letters (if applicable)

Letter informing ROW owner of residual contamination (if applicable)(public, highway or railroad ROW)

Copy of (soil or land use) deed restriction(s) or deed notice if any required as a condition of closure.

Re: Conditional No Further Action Notice
(former) MidLakes Cooperative, Shirley, Wisconsin
DATCP Case #94539041201

Dear Mr. Johnson,

I have some good news for you. On May 29, 2002, I presented the results of the investigation of your former facility located in Shirley, Wisconsin to DATCP's Closure Committee. The committee agreed that you have satisfactorily completed your site investigation and cleanup, and you have demonstrated that the groundwater impacts are limited in extent.

However, since the groundwater below the site has been impacted with nitrogen at concentrations in excess of Wis. Admin Code NR 140 Enforcement Standards, the site can only be closed using one of the flexible closure options specified in Wis. Admin Code NR 726. Specifically, the Committee has agreed that this site can be considered closed from further investigation providing you place the site on the Wisconsin Department of Natural Resources' groundwater GIS Registry.

The first step you need to take in this process is to have Sigma prepare a cost estimate to complete the steps necessary to get the site placed on the GIS Registry. Just so you know, the Wisconsin Department of Natural Resources (WDNR) requires a one-time fee of \$250 to allow sites to be included on the GIS Registry. This fee must be paid before the WDNR will consider this site for inclusion on the GIS Registry. The fee is not reimbursable by the ACCP.

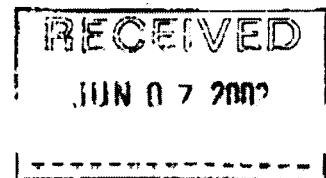

If you have questions, please call me at (608) 224-4515.

Sincerely,

A handwritten signature in black ink, appearing to read "Richard C. Graham".

CERTIFIED SURVEY MAP

640

STATE OF WISCONSIN,
BROWN COUNTY, ss.

I, ROBERT D. HALL, Land Surveyor, Do hereby certify that I have divided $\frac{1}{4}$ of the N.W. $\frac{1}{4}$ of Section 27, Township 22 North, Range 21 East, Town of Glenmore, Brown County, Wis., described as follows: Commencing at 1" steel pipe set by me for the Northwest corner of Section 27, thence N 89°-E 649.22 Ft. along the center line of Wis. 96 to the point of beginning, thence continuing N 89°-04'E 183.53 ft. to a 1" steel pipe, thence N 88°-47'E 476.61 ft. along center line of said highway to a fence line prolonged southerly, thence S 0°-14'-15"E 381.11 ft. along said fence line, thence S 88°-47' 471.03 Ft. thence S 89°-04'W 184.47 Ft., thence N 0°-56' 381.35 ft. to the point of beginning, subject to the right of the public for highway purposes over the north 41.25 Ft. thereof as containing 5.7574 acres of land south of the center line of the highway and 5.1515 acres south of the south line of the highway, that I made such division by order of Ted. Van Handel and Angeline Van Handel, his wife, owners of the land divided, and
 That I have complied with Section 9108 of the Code of Ordinances of the City of Green Bay, Wisconsin, with Chapter 236 R. S. Wisconsin in surveying, dividing and mapping the same.

Given under my hand this 8th day of April, 1968.

ROBERT D. HALL, Land Surveyor
